

## HOLTOP PM2.5 Anti-Haze Electric Mask

(Filter grade: KN95)

This product adopts food grade HEPA filter, removal efficiency of PM2.5 particulate up to 99%. The HEPA filter is characterized by the fresh air can go through, however, tiny particles cannot pass through. PP(polypropylene) sterilizing filter, is good for bacteria inhibition and decomposition. Activity carbon filter can effectively filter odor. Built in mini supply fan to offer activate air can greatly reduce respiratory resistance. Three speeds control offer different air volume, completely solve the stuffiness and humidity problem of the traditional mask. Skin-friendly food material, ergonomic design, perfectly fit for face, easy to clean, does not affect normal communication when wearing.

Five level filters

Material: Food grade silica gel
Filter grade: KN95
Noise < 30dB(A)
Charge date: 5V/1A
Battery life: 6H
Airflow: 8L/S clean fresh air
Recommended users: 4~11 years old

Mask Detail

**Haze removal >99%**

Five-layers filtration, super clean  
More Purification, more protection

Five-layers filtration

- 5 PP aseptic water proof filter
- 3/4 HEPA filter
- 2 Crystal carbonate filter
- 1 Plant fibre primary filter

**Safe**

Baby food grade soft silica gel  
Without BPA, safe non-toxic

Same level food grade silica gel as  
baby nipple, no harm for skin

To wash directly or disinfect in  
high-temperature streaming

**Say goodbye to oppression**

- 3 shift airflow to adjust freely
- Large ventilation chamber for free breathing
- Rotate speed 6500r/S
- Super large airflow 8L/S

**6hours Long Endurance**

With 608mAh battery capacity,  
no trouble for outdoor activities!

**Super silence**

High speed maglev quiet rotor,  
multiple geometric blade design  
to make it lower noise

## How to Use

### Adult's type

### Child's style

### Battery charge

- 1) Battery charge is 2 hours in normal mode, 45 minutes in fast charge mode, battery life is around 6 hours after full charged.
- 2) Indicator light is red during charging, after the full charge it turns to green, the batter charger for Android phone is suitable.
- 3) The battery is polymer Lithium ion battery.
- 4) Battery capacity, 608mAh for HKZ - C1 and 560mAh for HKZ - R1.
